ABOUT

Results-oriented Construction Project Manager with a background spanning site operations, infrastructure delivery and construction technology. Proven track record of leading cross-functional teams, coordinating contractors and vendors, and keeping multi-stakeholder projects on schedule and within scope. Currently building Siteflow, a construction site management platform, drawing on hands-on experience of the tools and workflows site teams rely on every day.

Construction Project Management

Planning & Scheduling | Risk Management | Budget Tracking

Project planning, scheduling, budget tracking and risk mitigation across multi-stakeholder construction projects.

Site Operations & Coordination

Vendor Coordination | Site Safety

Coordinating contractors, vendors and site teams to keep projects on schedule and within scope.

Client & Stakeholder Relations

Client Delivery | Reporting

Managing client expectations, progress reporting and stakeholder sign-off from kickoff to handover.

Siteflow — Founder

Construction Tech | Product

Building a site management platform that helps construction teams plan, track and deliver projects more efficiently.

Professional Experience

2025 – Present

Founder & Project Lead

Siteflow

- Building a construction site management platform, working directly with contractors and site teams to shape planning, scheduling and progress-tracking workflows.
- Defining product scope and delivery roadmap; validating features on live sites with contractors and vendors.

Nov 2024 – Present

Project Lead & Site Operations Manager

Sandhurst Service Station Ltd, UK

- Led site infrastructure projects from initiation to completion, ensuring strict adherence to budget and timeline constraints.
- Managed contractors and third-party vendors, tracking performance and resolving on-site escalations.
- Oversaw day-to-day site operations, safety compliance and routine inspections across the facility.

Feb 2024 – Aug 2024

Site & Asset Operations Coordinator

Shara Engineering Consultants Ltd, UK

- Supported project and site operations for an engineering consultancy, coordinating with site teams to minimise downtime.
- Maintained strict inventory control of site assets, managing procurement and licensing to optimise costs.
- Implemented access controls and routine checks to mitigate operational risk.

Jan 2022 – June 2024

Project Coordinator & Client Relations

SRILIONS Innovative IT Solutions, Sri Lanka

- Coordinated project tasks across multiple departments, streamlining workflows to ensure timely delivery.
- Managed stakeholder expectations and client reporting, maintaining high satisfaction throughout the project lifecycle.
- Improved document organisation and operational workflows, raising team efficiency.

July 2022 – July 2023

Project Lead

State Timber Corporation, Sri Lanka

- Led cross-functional delivery of a site operations management tool for timber and fuel distribution, improving operational efficiency and enabling data-driven decisions.
- Oversaw the corporate rebrand and website redesign, coordinating teams to a 30% increase in engagement.

EDUCATION

BSc (Hons) Computer Science

University of Westminster · Jan 2021 – July 2024

Final year project: Hunger Map — a trained model predicting the malnutrition index worldwide.

FREELANCE — CONSTRUCTION CLIENTS

Delivered end-to-end digital solutions for construction-sector SMEs — requirements gathering, design, development and SEO.
